My agency has assisted many clients in the past with their heating bills. Today the economy has left many agencies starving for funding to help those in need. I cannot see you the commission agreeing to raise LGE payments when unemployment and other needs in our country have already sky rocketed. The price of food and even basic needs have become over whelming to afford.

Many employers have frozen pay raises and hiring new employees I myself struggle with these issues. Please do not let this happen. Because even though I work every day I am one of the thousands of people living from pay check to pay check.
