RECEIVED

FEB - 3 2010

PUBLIC SERVICE
COMMISSION

Now enclosing flyers LG + E ^{and} ~~and~~
the customers/re. get another raise.
Speaking for myself, I am fed up with
your spineless, gutless ninnies
that roll over + play dead everytime
LG + E or by utilities wants get
another raise' or raise

They just got in to cover the ice
storm, floods + hurricane aftermath

Post yourselves in left. Co. What are do they
want now?
like other retired folks, I live on a SS

+ a small retirement check + I didn't
get a raise this year to cover all
the phone + other utility raises on my
dmg plan, SS / Medicare Supplement raises,
etc.

What are we to do if you roll over +
play dead + let LG + E bid that 8.75
% increase + \$4.65 a month may
not sound like much to you rich, fat cats
+ political hacks but \$5 here or every
utility etc. means less \$\$ for groceries
+ other necessities. So for once,
get off your rear ends + tell LG + E +

Key utilities no one raises. EON/UCB
is foreign-owned now thanks to a lack of
planning + foresight or part of our
greedy mayor + water council. Ever
since they took over, it has been 1 lowered
raise after another + I for one am
fed up with your spineless inability to say NO to EON.
I've talked to other people,
including retirees, + they are fed up
with your total lack of leadership,
compassion for the hard-work middle class +
retirees.

I am brochure for my church or part-time
basis. We, as a church, we now classified
as "commercial", + our rates last 3 years
have gone through roof, especially the water
bills here in Jefferson Co. thanks to a gutless
MSD board + EPA-mandated \$80,000,000 new sewer
system.
I, for one, will go back to wood stoves,
coal, + candles, before I pay yet another
increase, or more out of Jeff. Co. + Ky
completely. We have a stupid governor who wants to
bring in gambling + other vices to balance budget holes
they created with all this state + ^{programs} spend. Get
the damned hands off welfare. We'd
save a bundle, with every raise in
utilities + increases in food prices, we have less +
less to spend on groceries, etc.

Your rich idiots, wake up + smell
the roses in real world, your bond can be
repaid! I'd like to know how much \$445.55 a

month, another lady who has cancer's
disease + has to eat liquids out of a

beulth food store makes \$400 a

month. A retired teacher, I know who had

a stroke, + is paralyzed on the side,

lives out of 2 food banks a month as

she can't stretch her meager \$759

disability check anymore due to all

these passes! Her ~~stomach~~ is a 50^o

now!

Next time you + that damned

PSC are in a super generous

mood: roll over + play dead +

give 100%, in particular, + all.

The folks utilities these huge increases,

think about how hard you are making

it on folks like them!

Sign me fed up with

your so-called leadership!
