Elizabeth H. Barrens 2009-00549

To whom it may concern:

I tried reaching you by phone, with no results. I want to protest the requested rates of increase for gas and electricity by K&S&E. People without jobs cannot afford utility bills now, much less added charges of about \$14.00 a month. I hope their request is turned down -- even a slight increase. We
(over)

were promised lower gas rates for Jan.,
Feb., and March. This has not happened.
Please consider these comments when
this is brought before your Com-
mission!

It would be nice to hear from you.

Sincerely,
Mrs. Harold F. Barrons
