PUBLIC SERVICE
COMMISSION

From: Edward C Grant

Dear Sir or Madam,

I strongly oppose any residential rate increase for LG&E that will affect senior citizens that depend heavily on Social Security income.

As you should know, senior citizens will not get an increase in our Social Security income for the next two years. Why should LG&E get an increase? Are their profits negative? They should be asked to tighten their belts just like we have to do.

Sincerely,

Edward C Grant
