PUBLIC SERVICE  
COMMISSION

Public Service Commission

I am just writing to protest the L & E rate increases. I know these large companies have large expenses but do they ever stop to think that us little people do too and we have to live on a budget with no increases. I think the increase they are asking is too much and it would burden the customers too much with all the other cuts we have taken. So let them and all their top people take a few cuts along with us.

I am sure you will give them their increase just like you give them all their increases every year, just once I would like to see you deny them one time.

Thank you  
Virginia McAlester
