PUBLIC SERVICE
COMMISSION

To Whom It May Concern:

This is in response to your request for a rate increase on our gas and electric. I understand you may need said funds but not to such a degree. I think 12% and 8% is outrageous. I am trying to survive on social security and am having a hard time keeping up with my bills as it is. As you know we did not get a raise this year and will not get one next year. I have cut back a great deal and think you could do the same thing. I think a small increase would be acceptable to most people but the rate you are requesting is out of line.

Please consider the plight of us elderly and the poorest of our people here in Kentucky. I think some of your execs. could live without a raise and bonus under these circumstances.

Your consideration will be gratefully received.

Patricia B. Elliott
