Re: *Application of Bluegrass Wireless LLC d/b/a Bluegrass Cellular for Issuance of a Certificate of Public Convenience and Necessity to Construct a Cell Site (Slate Branch) in Rural Service Area #6 (Pulaski County) of the Commonwealth of Kentucky, Kentucky Public Service Commission Case No. 2010-00006*

Dear Mr. Mitchell:

We are legal counsel to Bluegrass Wireless LLC d/b/a Bluegrass Cellular ("Bluegrass Wireless"). In that capacity, we are responding to your letter dated March 15, 2010, addressed to the Public Service Commission of the Commonwealth of Kentucky (the "Commission") regarding your concerns with respect to the proposed construction of a cell tower facility to be located at 280 Mitchell Lane, Somerset, Kentucky, 42503.

Bluegrass Wireless proposes to construct this cell tower facility in Pulaski County in order to provide enhanced wireless communication services in the area. The proposed cell tower facility will accommodate the citizens of Pulaski County and individuals traveling along State Road 1642 and in the vicinity. The proposed cell tower facility will also accommodate emergency medical services and other emergency response services, such as 911, that are vital to all communities. To date, there have been no objections to this proposed cell tower facility from any local or other governmental agencies and officials.

The proposed location of the cell tower facility is the most suitable location in this area of the county due to: (1) its elevation; (2) the nature of the terrain in the surrounding area; and (3) its proximity to State Road 1642. The proposed cell tower facility will accommodate other carriers in the future which will eliminate additional cell tower facilities being constructed near your property as well as others in the vicinity. The site for the proposed cell tower facility was selected by radio frequency engineers, on behalf of Bluegrass Wireless, who used their expertise and applicable propagation prediction tools to determine that this site is the optimum site in terms of location to provide the best quality service to customers in the service area.

Finally, in Kentucky P.S.C. Case No. 2005-00445, we addressed the issue of decreased property value due to the construction of a cellular tower facility. We introduced expert

Mr. Brent W. Mitchell, Sr.

testimony in that case which opined that the proposed cell tower facility would not negatively affect the value of the property.

I hope that this letter satisfactorily addresses your concerns.

Thank you.

Very truly yours,

DINSMORE & SHOHL LLP
