**PUBLIC SERVICE
COMMISSION**

This letter is concerning case #2010-00006 the proposed construction of a 240 Ft cell tower. The tower will be approximately 250 feet from the back door of the home I have on the adjacent property. The tower will increase the traffic in the neighborhood, which are restricted lots. I am also concerned about the possible health risks to residence of my home. I also feel that the tower will decrease the value of my home and will affect any future sale or rental of my home.

Sincerely,

Lowell Wright
