Re:
Proposed tower construction by Cumberland Cellular Partnership

Case:
2010-000044

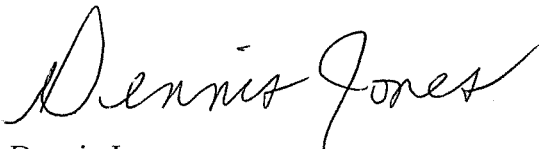

To Whom It May Concern,

I am a landowner that will be affected by this proposed tower construction. I have a few questions and concerns.

1. On the survey I received in the mail, it illustrates a 500 foot radius around the center of the proposed tower. Is it the intent of Cumberland Cellular Partnership to clear trees within this entire 500 foot radius? If the answer to this is yes, then I have some serious concerns about how this construction will affect the quality, (privacy, views, etc.) of the surrounding wooded lots. The 500 foot radius does extend onto my property. I purchased my lot with the intent to build a retirement residence, and did not anticipate having such a large structure within view of my retirement home.
2. If the answer to my first question is no, then I still have concerns about having such a large tower within view of my property. There is now doubt that I will be able to see this tower from my property. Will there be any noise (humming), that will come from this tower?
3. What are my options to intervene in this proposed construction?

I appreciate your prompt response to these inquiries.

Sincerely,

Dennis Jones
