Importance: Low

Kathy,

This does not require a permit from the Kentucky Airport Zoning Commission. The site is beyond the 20,000 horizontal distance from the Henderson Airport and does not exceed 200 feet above ground level. Save this email for your records. If you have any questions, let me know.

Thank you.

Good morning, John.

I wanted to check in to see if you have had a chance to look at the above. I don't believe KZAC is needed, but wanted to confirm. Can you please let me know if this site falls within your jurisdiction?

Thank you!

Hi John,

I hope you are good! I needed to confirm if the above site requires KZAC approval. I have checked and there are not any airports within 10 NM of this site.

I have attached the 1A, KZAC application and 7460-1. We are looking to construct a 199' Monopole.

Thank you for your help!

Kathy Kelly-Jacobs

Federal Aviation Administration

<< OE/AAA

Notice Criteria Tool

The requirements for filing with the Federal Aviation Administration for proposed structures vary based on a number of factors: height, proximity to an airport, location, and frequencies emitted from the structure, etc. For more details, please reference CFR Title 14 Part 77.13.

You must file with the FAA at least 30 days prior to construction if:

- * your structure will exceed 200ft above ground level
- * your structure will be in proximity to an airport and will exceed the slope ratio
- * your structure involves construction of a traverseway (i.e. highway, railroad, waterway etc...)
- * your structure will emit frequencies, and does not meet the conditions of the FAA Co-location Policy
- * your structure will be in an instrument approach area and might exceed part 77 Subpart C
- * your structure will be on an airport or heliport

If you require additional information regarding the filing requirements for your structure, please identify and contact the appropriate FAA representative using the Air Traffic Areas of Responsibility map for Off Airport construction, or contact the FAA Airports Region / District Office for On Airport construction.

The tool below will assist in applying the appropriate slope calculations per Part 77 Notice Criteria.

Latitude:	<input type="text" value="39"/> Deg <input type="text" value="49"/> M <input type="text" value="6.82"/> S N <input type="button" value="↕"/>
Longitude:	<input type="text" value="87"/> Deg <input type="text" value="28"/> M <input type="text" value="15.34"/> S W <input type="button" value="↕"/>
Horizontal Datum:	NAD83 <input type="button" value="↕"/>
Site Elevation (SE):	<input type="text" value="461"/> (nearest foot)
Structure Height (AGL):	<input type="text" value="199"/> (nearest foot)
Traverseway:	No Traverseway <input type="button" value="↕"/> (Additional height is added to certain structures under 77.13(a)(3))
Is structure on airport:	<input checked="" type="radio"/> No <input type="radio"/> Yes

Results

You do not exceed Notice Criteria.
