Application of Water Service Corporation of Kentucky for an Adjustment of Rates
Case No. 2010-00476

Dear Public Service Commissioners:

I oppose the water rate increase because:

the water bill are very high now
and there are people ~~one~~ once a month
income and can't afford to pay the
increase, I work and it still hurt me
to pay a high water bill, and the
sewer system is not what it should
be either when the water raise, the
sewer system get fill up with water
and stuff and everything get ~~lock~~ lock
up in my house, and you smell waste
and I get hard water and the water
don't taste that good. So if you are
going to increase the rate, if all the
promise first and think of other to
before you do the increase, think about
the old that don't work and are ^{on} a fix income
God will work it out all of it, God Bless
