COMMENTS: while I can appreciate the necessity to increase utilities costs, with this increase I can not keep silent. Please keep increases within more ordinary bounds. For instance, for the passed two years my pay check has reflected a 3% (THREE PERCENT) increase per annum, yet there is a proposal to increase my water bill, already increased nearly 30% (10 times my salary increase), an additional nearly 220%?! PLEASE, have mercy, and increase more gently if you must increase & wait a while.

Sincerely,
M.V. Berry
