Subject: your comments in case 2011-00401 - Kentucky Power Co. environmental surcharge case

Dear Ms. Miller :

Thank you for your comments regarding the environmental compliance plan and surcharge proposed by Kentucky Power Co. Your comments will be placed into the case file for the Commission's review as it considers this matter. For your future reference, the case number in this matter is 2011-00401. Please cite it in any future correspondence regarding this case so that your comments may be readily directed to the case file.

A video that explains the legal process under which the Kentucky Public Service Commission considers such cases is available through the PSC website. Follow this link:

Comment on Kentucky Power Rate Increase:

It is my understanding that the rate increase is expected to be \$30 per month on average. In my opinion that is \$30 too much when our electric bills have already nearly doubled over the last 18 to 24 months. Working families cannot

continue to absorb the costs associated with further rate increases created by political agendas. Working, middle class families are choosing between bills, gas, medicine and food as it is to meet budgetary necessities. \$30 would in all to many families be the straw that breaks the camel's back. At some point it is time to say enough is enough and you must look somewhere other than the working people of our communities to fund your projects. The answer to the question of a rate hike of any amount should be a resounding NO!
