Case: 2011-00401

COMMENTS: To Whom it may concern:
There is talk of closing the power plants in
Eastern Kentucky that are coal fired plants.
Without upgrades of new scrubbers. Why
not do the upgrades and keep a reliable
source of energy in Eastern Kentucky. I don't
know a lot about the electricity business but
it seems to me the further away the source
of energy the less reliable it would become
over time, as our population and energy
needs increase it makes good sense to me
to keep and upgrade what power sources
we do have.

Roberta Gilliam
