Following a discussion during today's Board meeting regarding whether the Environmental Surcharge (ES) can/should employ a 12-month rolling average for the Total Adjusted Revenue (each month), I phoned John Wolfram of The Prime Group. John indicates the Total Adjusted Revenue for the ES for Big Rivers will employ a **1/12<sup>th</sup> of a rolling 12-months** (the denominator) for monthly ES cost allocation.

Comments welcome. Upon your concurrence, will inform the Board and the member CEOs.

Thanks,

Mark
