Subject: CASPR Delay

Good Morning Gentlemen: Happy New Year! I am scheduled to report for Jury Duty at 8:30 this morning and do not presently know what all that will entail. In light of the court decision to hear the case against enforcement of the CASPR Rule, I believe it is appropriate for us to evaluate how this may affect us and whether we should be taking any special precautions now to protect ourselves dependent on how that case may come out. In other words, we should determine whether we need to comply now or wait, and if we wait, is there any possibility of retroactive enforcement that we want to be prepared for. I have asked Bob Berry to gather the group listed in this message together to consider the matter. If need be, please bring in counsel to assist in evaluating possibilities and protection options. I have asked Bob to keep me advised. Thanks, Mark
