**Importance:** Normal

---

Mark, would it be better to move the Key Topics for Today's Discussion be moved to the early part of the presentation rather than the end? Thanks, Mark

Fellas, attached hereto is the first draft, patterned after the recent CoBank presentation. Victor Vu of RUS generally requested a Big Rivers' update and informational overview, noting that it's been quite a while since Big Rivers visited RUS. The "meat" of the agenda is 1 page, page36. For the first two items, we'll have copies of the two letters recently sent to RUS to aid the discussion. The other items can simply be discussed, without slides.

By the way, regarding the ECP letter, John Cheung (202-720-1429) of the RUS Engineering Branch phoned today, saying he has been assigned the responsibility of working with Big Rivers for project approval, bidding procedures, contract requirements, etc. And, Mark Plank (202-720-1649), also of the RUS Engineering Branch, has been assigned the responsibility of working with Big Rivers on the environmental review, the NEPA process, etc.

Comments/edits/suggestions welcome. Hope to finalize this by close of business next Thursday 3/15. Will then have 15 copies made to take.

Thanks,

Mark
