Response requested: No
Importance: High

John. Please find out when this meeting is and what the call in number is and consider participating in the conference/workshop.

This will hopefully permit, Mike Thompson, Mike Mattox, you and/or others to be engaged in this FERC meeting on CSAPR. Al.

Subject: FERC conference

Gentlemen,

Since all three of us either "attended" the MISO CASPR meeting yesterday I thought the following event would be of interest.

<http://www.ferc.gov/EventCalendar/EventDetails.aspx?ID=6053&CalType=>

&CalendarID=116&Date=11/1/2011&View=Listview

Anita Collier told me she spoke to someone, I believe at FERC, who said the commissioners would be at this conference vs. just staff. She also said she was told there should be a call-in number available if we could not attend in-person.

Mike M.
