Subject: HMPL HAPS testing PO
Importance: Normal

Linda,

Please create a requisition for "HAPS testing at HMPL Station". Create two line items; one line for the "HAPS testng", \$68,000, a second line for "time and materials", \$10,000 to cover any additional expenses due to delays.

Coding for project: Org: 0012

Project: Study – Production

Task: ENV-COMPL

Thanks,

Mike

Big Rivers decided to proceed without HMPL sharing in the cost of emission testing. Thanks for asking.

Jim

Jim,

AirTech Environmental has submitted their revised proposal for testing at HMPL. The price to perform testing at each unit is \$34,000. I am having the requisition prepared, should there be any additional coding for the City of Henderson?

Thanks,

Mike
