To clarify... use the \$220 million CapX for CSAPR and the \$29 million CapX for MATS, plus the O&M for each, noting the MATS O&M commences 2016.

For the 10-year projection, perhaps you can add this MATS to the earlier CSAPR. I have an IRMC meeting this morning, then a CoBank conference call after lunch. Hopefully we can talk around 2:20pm, and perhaps finalize the projection.

Thanks,

Mark
