Subject: Pace Global Market Pricing Data Details

Eric,

The attached file contains the detailed data you requested associated with our MISO market study. We have pulled the detailed hourly and monthly data associated with *a single reference case analysis*. However, as you know, we also provided a probabilistic distribution of annual price outcomes (summarized in the last tab in detail for your reference) that deviate significantly from the reference case in either direction. If you would like further granular detail more representative of high or low parts of this range, let us know and we can work to meet your needs. Feel free to let us know if you have any questions.

Best regards,

Pat
