**Subject:** Pace Global price forecasts detail?

Eric,

After discussions with Bill and Mark for purposes of 15-yr modeling inputs; would you be able to inquire with Pace Global if they could provide electronically their:

- Power market forecasted pricing hourly, on-peak and off-peak, 2012 through 2026?
- ILB (WKy) coal forecasted pricing by month 2012 through 2026 (in \$/mmBTU)?
- Henry Hub natural gas forecasted pricing by month 2012 through 2026 (in \$/mmBTU)?
- CSAPR allowances forecasted pricing by month 2012 through 2026 (SO<sub>2</sub>, annual NO<sub>x</sub>, and seasonal NO<sub>x</sub>)?

This would greatly facilitate modeling efforts.  
If you have any questions please let me know?  
Thanks,  
Mike T.
