Hi Guy,

I am doing very well, thank you and hope you are as well. It seems the pace in the world continues to increase and this summer has been a reflection of that. We would be very happy to meet and discuss the upcoming environmental requirements and their implications for each of us. Since RTA is actually Kenergy's customer (rather than Big Rivers) and Century also clearly has an interest, should we include their representative(s) in the discussion as well?

Thanks,

Mark

Subject: Potential environmental regulations

Hello Mark.

I hope this finds you very well. I am sure you will agree that this has been a very busy summer.

I am attaching a letter in which I propose a high level meeting to discuss how our two organizations might work together to respond to the pressures that our businesses will face in light of the new, pending, and potential environmental regulations.

I hope you will accept our offer and the spirit in which we make it.

Best regards.

Guy Authier
