Response requested: No
Importance: Normal

Bill. Second of two on Project Outline. Note my comments on the Environmental Compliance and Plant Construction. When I mentioned this to Lindsay this morning her response was, it has already been sent to the Board and "it would be asinine" to change it at this point. In addition, she indicated this was Bill's now. Do not want someone to assert Bob or Tom to take exception without your awareness. Respectfully,
Al.

Lindsay, Just to make sure we are together, I do not intend for you to cover this material; just the material you sent out a few days ago. You may want to highlight initiatives that we added and/or modified in the plan you sent out that dealt with this higher level strategic plan. Thanks, Mark

Mark. Thanks. I noticed on slide 3 that Environmental Compliance shows Eric and Tom as leads and that the Plant Construction shows Eric and Bob as leads. However, the individual slides 5 and 6 for these two items only show Eric while the rest of the individual slides show dual leads. I point it out in case you want to consider revising slides 5 and 6 of the presentation shown at the board meeting. Good presentation.
Respectfully, Al

The attachment is for your information. I covered the first two slides in Executive Session with you last month, but thought you might be interested in the remaining slides as well. As you may recall, I have implemented the organizational changes associated with executing the plan outlined in the attached material since we last met. As you also know, the items included in this attachment are the significant strategic issues we are facing.

While elements of the Plan included in the attachment are reflected in the Strategic Plan material Lindsay sent out a few days ago and will cover with you during the upcoming Board meeting, we will not include every aspect of the considerations you and I have discussed in Executive Session over the past 6-8 months in the published Strategic Plan for what I hope you will agree are obvious reasons.

If you wish to discuss this material further, we may want to consider doing so in another Executive Session.

Regards, Mark

Mark,

I made the two changes you requested. If you need anything else, just let me know.
Thanks!
