**Importance:** Normal

---

Ok

Lindsay gave me a heads up. Ken and I have done a prelim look at what might be demo'd and Vivky is adding it up for me

Eric,

Per previous e-mail, assuming a high level review, I am in agreement with your assessment of red items and require more information to make a definitive determination on the items in yellow. We have listened to various FGD technology proposals and each one would utilize the existing infrastructure differently; thereby affecting the disposition of the items in yellow. Please let me know if I can be of assistance.

Ken

Ken

Mark Hite sent me the CPR for the Wilson FGD

I made first pass at what I thought would probably be demo'd out (in red) and what I thought might be demo'd (in yellow)

Would appreciate you going thru my take on it and mark it up as you see fit

Call if you have questions 6185

Thanks

Eric
