Importance: Normal

3 week delay means mid to end October?

At this time primarily interested in CSAPR cap ex estimates. Any early peek (for my eyes only) would be appreciated

Will be checking e mail daily when I leave on Thursday

Eric,

We are tracking about 3 weeks behind the schedule we provided in May.

We were doing high-level estimating to develop the scenarios for compliance in the Technology Matrix, given the number of permutation possible for compliance.

Based on the scenarios provided, we are now moving forward with more detailed cost-estimates. I expect results the end of next week, so that we will be able to discuss upon your return from vacation.

Regards,

Subject: update

Can you give me an update on where you stand on schedule?

I assumed some work had been going on the estimating side, but started wondering about that assumption over the weekend.

In particular, interested in knowing when you might have some cap ex estimates for the various technology fixes.
