 RE: Case No.
 2010-00204 Ky.
 Utilities Co. Rate
 Adjustment

Dear Public Service Commission

Although I am
 wasting my breathe, since each time Kentucky
 Utilities ask for A rate adjustment it is given
 by you the Public Service Commission I will
 once again object to this rate adjustment.

In this economy especially, with
 high unemployment, AND the strain on the
 purse of the failing middle class we can
 ill afford to pay more for utilities that
 provide us the same service as we have always
 known. The current rates are a strain on
 the purse of the average person, it should
 be considered a sin for them to ask for
 more money. Do they not know the plight
 of the common man these days or is it
 that they just do not care.

I do not understand what they mean when they are also asking for changes in the text to most of its tariffs, including its terms and conditions for electric service. Whatever this means they are hiding something from us by making it an item that you must contact Kentucky Utilities for to learn more about. I will do this but I am sure few people will do so which is the same as hiding something from the public.

I do not understand how Kentucky Utilities and The Public Service Commission plan for folks such as myself to continue to make a living especially on our fixed incomes which take a hit each and every day.

I will end this letter by pleading to God that this request will not be granted by the Public Service Commission so that people will not have this, yet another strain on our purse. If this is granted we might as well throw up our hands and give all we own that Kentucky Utilities has not already taken to the wind.

Respectfully

Robert Lee Tudor & Son

P.S. My interest in this matter is that I am a Total Electric Customer of Kentucky Utilities, for over 55 years, and since 1979 I have kept a tally of what I have paid Kentucky Utilities for my service since I built a new home in 1979 and that total is

\$ 59,722.35
(up to June 2012)

Thanks for Reading My Objection Letter!
