Mr. Jason Brangers
Manager, Gas and Pipeline Safety Branch
Kentucky Public Service Commission
211 Sower Blvd.
P.O. Box 615
Frankfort, KY 40602

**Re: 5206 River Trail Place
Louisville, KY 40299
11-ED-G- 031**

Dear Mr. Brangers:

Enclosed are the MAOP daily and hourly pressure readings from the Preston & Southpark district regulator facility from 1/1/2011 – 7/15/2011. These are scans of paper charts used to record this data prior to the installation of the electronic pressure recorder in July, 2011. The data records from after the installation of the electronic pressure recorder were provided to Steve Samples during yesterday's interview sessions.

These pressure recording charts are typically changed on a weekly basis. There were two time periods for 1/7/2011 – 1/19/2011 and for 6/2/2011 – 6/15/2011 when a separate pressure chart was not generated for each week. For these two cases a separate pressure chart for the adjacent Preston & Springview district regulator facility is provided for completeness of information. Please note that lack of a separate weekly chart for these time periods does not denote a loss of data. The circular recording chart simply draws a line over the previous set of data. Note also that the Preston & Southpark chart for 6/15/2011 and the Preston & Springview chart for 6/9/2011 – 6/23/2011 both indicate the pressure increase from 35 psig to 45 psig that was made on 6/15/2011, as part of the planned uprate procedure.
