PUBLIC SERVICE  
COMMISSION

2/22/15

**Dear Kentucky Public Service Commission, David L. Armstrong, James W. Gardner, Commissioner Daniel E. Logsdon Jr. and all agents, officers, employees, contractors and interested parties:**

This letter is in reference to the Public Hearing regarding Case File 2012-00428 which was announced on December 5<sup>th</sup> 2014 and then immediately held on December 16<sup>th</sup> and 17<sup>th</sup>.

First let me say that I believe the timing and short notice on this meeting was done deliberately to prevent public comment! My family has been writing you and the utility companies since 2011 regarding the subject of smart meters. Not only have they begged to have the smart water meter, (placed illegally on their property) removed, but we have sent 100's of documents including medical letters, research, and public opinions across the U.S. regarding these "death meters". (My family has spoken and e-mailed Andrew Melnykovich numerous times and he has been the one responsible for placing the documentation in the Case File mentioned above.)

I also believe that the Public Hearing was just a formality since you have already authorized numerous installations across the state, while still announcing to the public that no decisions have been made, and then 2 years later sliding a public hearing, in the middle of winter, and right before the holidays right under our noses!

Over the last 2 years, my family has consistently asked Mr. Melnykovich to notify them of the public meeting, but when it was announced they received no notice and did not find out about the meeting until after the fact!

I agree 100% with the comments made by Melissa Kirtley on December 16<sup>th</sup> and I am adding the following comments:

Please be aware that I expect each of you to thoroughly read ALL Documentation and Research regarding the illness and death caused by these meters, all the fires and explosions caused by these meters, and all the violations of privacy and human rights caused by these meters. These were sent to you through Andrew Melnykovich (over the last 2 years) to case file 2012-00428 for your review.

Please be aware that the link listed in this letter below lists legal violations and I expect all of you to be aware of them and that each of you will be held accountable if you allow the Smart Grid and Smart Meters to move forward. (I have attached a brief overview, but would ask that you read the document so that you can fully understand the legality of it!)

I believe that ALL PERSONS who allow the installation of these smart meters/ radio read meters, should be prosecuted for attempted murder, and once the individual becomes sick and dies, prosecuted for pre-meditated murder as well as all other violations listed below! (This also includes the abuse and death of all pets, wildlife and plantlife which are being killed by these meters!)

**Please know that I also consider it extortion to claim to offer "opt out" fees! My family never opted into anything and their analog meters work just fine!**

**There are NO BENEFITS to any living human, animal, or plant from Smart Meters!**

**The smart water meters installed in their neighborhood have already killed several plants and trees in the yard, and make them sick when they try to work in the yard! I can not even spend time helping in the yard when I come to visit because of the symptoms I experience and due to the previous exposure I have had.**

**Please take the time to review all documentation in Case File 2012-00428 and the legal document of violations listed at the website below:**

**I have already had exposure to these meters and have lost several friends to heart attacks and Cancers caused by these meters.**

**Are you going to have one installed on your home?**

**These wireless smart meters are part of Agenda 21 and the ICLEI Sustainability Plan which Kentucky has ignorantly (or intentionally) implemented.**

**It saddens me to know that anyone living in Kentucky would destroy that beautiful state and the lovely people in it.**

**The loss of life would be devastating and I've already seen the damage to property and health in my families' neighborhood after the illegal installation of the smart water meters.**

**Please put an end to this EVIL PLAN and recognize you should not be involved!**

**I greatly appreciate your time and ask that you protect yourself, your family, your friends, as well as all of mine.**

**Sincerely,**

**6 year old female cat, fed organic food since birth, exposed to Smart meter over 2 year period. Tumors ruptured out of underneath her body. 4 of her siblings are still alive...they are not fed organic food, but are living in homes without smart meters!**

Owner of deceased cat on left with blisters on tongue and signs of spleen damage. Hair falling out and severe joint pain with headaches, dizziness, nightmares, irrational thoughts, heart palpitations and difficulty breathing. Symptoms started within 3 months of exposure to smart meters. This individual ate organic food and did not eat processed food. **Once they moved away from the smart meters, all health returned to normal. Unfortunately it was too late for the 5 cats and 1 dog she owned!** Out of 7 pets exposed over the 2 year period, only 1 survived....it was a dog that had just been brought home (6 months before moving.) and had started vomiting after moving in. **All vomiting ceased after moving away from the smart meters.**

#### **ISDE, IDEA: Statement on Electromagnetic [radio frequency] Radiation [EMR] and Health Risks**

International Society of Doctors for the environment (ISDE) and Irish Doctors' Environmental Association (IDEA) state that there is sufficient scientific evidence to warrant more stringent controls on the level and distribution of electromagnetic radiation [EMR]. The joint statement and recommendations are part of a call by medical and scientific experts for safe technologies in schools.

The report aims to inform schools, Governing Bodies, Academy Trusts, School Boards, Education Authorities, teachers and parents of the professional, medical and scientific concerns about children using wireless technologies in schools. The information can be used to implement safe school policies, practices and guidance in order to safeguard the health and development of children and young people and to aid cognitive abilities, learning and achievement.

#### **Irish Doctors' Environmental Association (IDEA)**

The Irish Doctors' Environmental Association (IDEA) is an Irish organisation established by health professionals seeking to promote the right to health and peaceful co-existence worldwide.

The main objective of the IDEA is to foster and promote, through education, publications and seminars, a concept of health as a state of physical, psychological and social well-being, which acknowledges the potential impact of environmental conditions, violent conflict, and inequalities within and between nations on that well-being.

EMFs can cause a wide variety of health effects to the general public. Since the FDA and Health Canada have approved some "Therapeutic Uses" for specific forms of EMF treatments proven to heal at energy levels far below current public exposure standards, the biological activity of EMFs cannot be denied.

The National Institutes of Health (NIH) found chemical changes in the brain from cell phone exposure, a 'smoking gun' finding that demonstrates a clear non-thermal effect. <http://well.blogs.nytimes.com/2011/02/22/cellphone-use-tied-to-changes-in-brain-activity>.

On Sept. 5, 2011 the International Journal of Neuroscience reported that "EMF hypersensitivity can occur as a bona fide environmentally inducible neurological syndrome." <http://www.ncbi.nlm.nih.gov/pubmed/21793784>

"Smart" Meter radiation is significantly stronger than from cell phones. See:

<http://www.stopsmartmeters.org/2011/09/04/comparing-cell-phone-and-smart-meter-radiation>

On May 31, 2011 the WHO classified smart meter radiation as a Class 2B carcinogen.

The "BioInitiative Report: A Rationale for a Biologically-based Public Exposure Standard for Electromagnetic Fields (ELF and RF)"

<http://www.bioinitiative.org/freeaccess/report/docs/report.pdf> was written in 1997 by fourteen scientists, public health and public policy experts, to document the scientific evidence on electromagnetic fields.

Another dozen outside reviewers have looked at and refined the Report. The purpose of this report is to assess scientific evidence on health impacts from electromagnetic radiation below current public exposure limits and evaluate what changes in these limits are warranted now to reduce possible public health risks in the future.

According to this report, it appears it is the INFORMATION conveyed by electromagnetic radiation (rather than heat) that causes biological changes - some of these biological changes may lead to loss of wellbeing, disease and even death." Here are some of their findings: Evidence for Cancer (Childhood Leukemia and Adult Cancers), Changes in the Nervous System and Brain Function, Effect on Genes (DNA), Effects on Stress Proteins (Heat Shock Proteins), Effects on the Immune System, Plausible Biological Mechanisms.

For hypersensitive individuals, the effects are immediate and intense. According to researcher Dr. Magda Havas, EMF Symptoms include: depression anxiety, difficulty concentrating, difficulty finding words, episodic hypertension, eye inflammation, fatigue, forgetfulness, frequent infections, headaches, heart palpitations, hormonal disturbance, impaired balance, irritability, joint and limb pain, learning difficulties, loss of appetite, lymph node swelling, nausea, nerve and soft tissue pain, night sweats, numbness or tingling, restlessness, skin complaints, sleep disturbance, thyroid problems, tinnitus, visual disturbance. For patients with heart problems, pacemakers or metal implants, a short exposure to strong EMF can be deadly! For infants and small children, who's blood brain barrier is not yet fully formed, exposures can lead to devastating health problems.

Please be aware of the following:

**The Federal Energy Act of 2005 states clearly that “smart” meters are to be OFFERED to residential customers, not mandated or forced:**

<http://stopsmartmeters.org/wp-content/uploads/2011/12/USEnergyPolicyActof2005.pdf>

“THERE IS NO FEDERAL SECURITY MANDATE FOR SMART METERS, according to George W. Arnold the national coordinator for smart-grid interoperability at the [National Institute of Standards and Technology](#). This agency of the U.S. Department of Commerce is said not to be involved in regulations but is only tasked with promoting standards among industries.

While both the 2005 and 2007 faux energy bills were codified into public laws, NO part of them creates a federal law pertaining to individual consumers or dictating that the public must be forced to comply with provisions of SMART Grid. “

**Smart Meters are in Violation of the Americans with Disabilities Act:**

The Americans with Disabilities Board recognizes that electromagnetic sensitivities may be considered disabilities under the ADA if they so severely impair the neurological, respiratory or other functions of an individual that it substantially limits one or more of the individual's major life activities.

**Remember your Board can be held liable for everything listed in this letter as legal violations as well as other violation data which is being collected throughout the United States regarding these dangerous wireless smart meters!**
