PSC CASE NO 2012-00486

Witness: John F. Patterson

a. Have you experienced any problems in administering the refund of any over-recovery or collection of any under-recovery of environmental surcharge costs?

RESPONSE: Taylor Counties only problem is collecting or refunding for a six (6) month period and then having to wait for over a year before another six month refund or collection period begins. Taylor feels that the next six month refund collection period should start the month after one is completed.

b. Do you recommend any changes from the current method of refunding collecting any over- or under-recovery of environmental surcharge costs over a six-month time period? If so, what is the time period you believe is appropriate?

RESPONSE: No.

c. Describe the benefits, if any, of allowing the refund collection of any over- or under-recovery of environmental surcharge costs to be spread over a time period different from the current six-month recovery period.

RESPONSE: Six month period works well.

d. Describe the negative effects, if any, of allowing the refund collection of over- or under-recovery of environmental surcharge costs to be spread over a time period different from the current six-month period.

RESPONSE: Six month period works well.
