RECEIVED  
JAN 29 2013  
PUBLIC SERVICE  
COMMISSION

Dear Commissioner

I would as a taxpayer, like to go on record opposing any rate increase for A W at this time.

The reasons they are giving in their correspondence for needing the increase have more to do with the efficiency of their operation than any benefit to the customer. I am referring to their latest letter to customers "From The Tap" (Investor benefits)

I believe they accept the lower increases knowing that they can come every 1 or 2 yrs for additional increases and get it approved. I believe the commission is doing a very negligent service to customers to simply approve rate increases just because they are requested. You bring disrespect to the commission which already suffers from a lack of credibility. I'm sure you are aware that most citizens believe you are simply a shaw piece on behalf of the utilities to keep the citizens quiet. We really

don't have any other recourse, even when  
we know we are not being represented.

There does usually, come a time when  
citizens have reached a limit and that  
time may be greater than we know.

So please don't add to our oppression.  
think of us for a change, think of  
your mission and try to just be  
aware of what it is and then to do it

Sincerely

Yours Julia Martin
