In response to the above case for the Ky American Water rate increase I vote NO!!!!

Our water company should turn off all water @ POST signs of unsafe consuming conditions.

Our household Purchases Water cooler tanks with OXYGEN as well as Bottled water for drinking.

The water is not safe for Consumption.

Again,As far as we are concerned They can TURN It OFF and, when they decide to build a FILTRATION WATER OXYGEN SYSTEM (NOT TREATMENT PLANT) we will gladly pay for it and email every household in Water District to rally for clean water!

WATER is LIFE without CLEAN WATER with The essential minerals and especially OXYGEN we are dead.

We feel if KY American wants to sell water they should be required to be regulated to sell a safe product like any other Business.

With regard to the rate increase requested by Kentucky American Water, I feel that we are being asked to pay for poor decisions made by the water company. Once the danger of being taken over by Urban County Government had passed the Water Company felt that it had a black check in the form of continuous rate increases. At a time when most of us are having trouble making ends meet the Water Company giving their executives giant bonuses. Please do not allow them another increase.
