PUBLIC SERVICE COMMISSION

This is in response to the PSC meeting on June 4th @ 9AM in which I am unable to attend due to heavy work load. However I would like to have this letter speak on my behalf and my families behalf also. Many of our neighbors we have just begun to contact. We are not in favor of a water rate hike from Ky American W

We would like to file a complain with PSC against KAW and, ask that water consumption be turned off until safe to drink and (used only for sanitation). We are purchasing our water thru other means - BOTTLED to drink and already pay on average \$179.00 for water other than KAW, water that is oxygenized with SAFE
