Subject: your comments in case 2012-00520 - Kentucky-American Water Co. request for rate adjustment

Dear Mr. Dickson:

Thank you for your comments regarding the rate increase proposed by Kentucky-American Water Co. Your comments will be placed into the case file for the Commission's review as it considers this matter. For your reference, the case number in this matter is 2012-00520. Please cite it in any future correspondence regarding this case so that your comments may be readily directed to the case file.

Thank you again for your interest.

Dear Public Service Commission,

RE: case number 2012-00529

I am writing to express my opposition to the rate increase that the Kentucky American Water company is requesting. This and previous requests for rate increases from this company reflect the fact that the company has not been managed effectively and has made no attempt whatever to keep its costs down. Rather than working to better its water customers, the company works only to make more money for share holders. It is time for this nonsense to stop and for the Public Service Commission to start serving the public and not Kentucky American Water.

Several years ago when the taxpayers of Fayette county tried to buy out Kentucky American Water it became clear how this company really operates. They lied to the public about anything they thought they could get away with so as to scare water users into defeating the attempt at public takeover. This was a dreadful display of out-and-out lying!!!

This form of company behavior is exactly what they do every time they request a rate increase – they simply lie about why they should be granted the increase. And you, the Public Service Commission goes along with them.

It is time for you to stop giving Kentucky American Water a rate increase.

Sincerely,

Robert C. Dickson

I hope someone at the PSC will stand up to American Water and decline the current rate increase request. After 5 years and over 70% increase in our water rates, someone at the PSC needs to have the backbone to tell American Water NO MORE increases. It sure seems like a constant rubber stamp from the PSC. American Water asks for an increase and one is granted. Has a AWK rate increase of some kind EVER been denied by the PSC?

I would really like to know the answer to that question. I hope someone will respond to me. Consider what these constant increases

have done to the citizens of Lexington's pocket book. The people made a serious mistake allowing AWK to be the water provider instead of the City.

I am one who made that mistake and wish there was something that could be done to remove American Water as our supplier.

It is up to you to make sure the people of this city are treated fairly. I would give you an F rating to date.
