To Kentucky Public Comm²⁰¹²⁻⁵³⁵
I would like to ask the
Commission to reject the
19% rate increase that Big
Rivers Elect. Cooperative
has ask for. That big off
increase seems excessive
and will cause a hardships
on people that are on a fixed
income. It will also cause
a hardship on small business
people.

I know that some cost
are fixed but if they make
less electricity then their
fuel cost should be lower.
