PUBLIC SERVICE  
COMMISSION

It is a shame what the Big  
rivers Elec. Corp. is trying to do  
with raises on old disabled people  
with low income and talking to  
pay bills now. I'm a 72 yr old  
on an ex 24 hrs a day. retired because  
I couldn't work anymore, not by choice  
I worked at the Camel Home and it  
is a wonderful Catholic home. The  
best in town. I pray you really pay  
attention, for I speak for many over  
65. that are in the same shape. O. Falls.  
raised over Cov ins and other bills to  
pay for this "upcoming" "new downtown"  
in progress. It looks awful. And we  
have a new pass I have many nurse  
friends, they do not like it either.

Some things to consider

1. In winter my gas bill is under <sup>\$5.00</sup> 50.  
gas heat, & water heater.
2. Home well insulated, Dunphy things  
when not in use new frig.
3. winter electric - \$80 to 90. with no air  
on. summer - \$115 to \$145.

- ~~4~~
4. I do not dry any clothes, except <sup>TOWELS</sup> towels, wash cloths.
  5. Do not cook, use microwave
  6. All lights are off when I leave a room  
I even did that at work, tried to teach  
Others to do the same.
  7. They say there are places that will help  
you if you're on O<sub>2</sub>. 24 hrs a day  
You sure do not feel like doing that.
  8. I was told by my Dr to stop working  
in 2004. I threw my O<sub>2</sub> in a corner  
and worked until 2008. When I was  
required to be on O<sub>2</sub> 24 hrs a day.
  9. God gives many blessings and  
"WORK" is at the top, you feel good if  
you help someone. I took care of my mother  
Hilda. Mother is low in the late 90's  
I love him and Jean, they're great.  
My son & I also took care of my mom  
with Alzheimer's. What a pleasure & joy  
it was to do that for her, it wasn't  
anything compared to what she gave me.
  10. I keep it 77° not really cool enough  
but I don't dare turn it down so I get a  
little warm. Please help maybe laid working  
people that paid taxes can get a break  
if they're not able to work anymore. Thanks  
Dorinda Ross
