Dear PSC

I'm writing to you about the proposed rate increase for Big Rivers Electric.

Personally this increase should not be permitted to pass. It is unfair for us as consumers and other companies to make up for Big Rivers shortfall. Century Aluminum is the big winner here because they got what they wanted and **BOUGHT ANOTHER SMELTER ALSO**. They were more competitive than what you thought in there market .You should have let them shutdown in my opinion.This could drastically affect my employer and put us at a disadvantage within the corporation. So I say to you please do not let this rate increase pass.Make the right decision. Look at it this way Century signed that contract with Big Rivers in the first place than everyone was held like hostages.

Sincerely,

John Adamic
