Case: 2013-00199 – Big Rivers Electric Corp. rates

COMMENTS: I work at Donnan and Pleasantville. We strive to reduce our footprint on the electrical grid every day. We are fortunate enough to generate a large portion of our own electricity and the proposed rate increase compels me to further reduce our load or generate more power. BREC is going to drive us to become a smaller customer. For the same reason, economic growth in our region will be cost prohibitive.

I am also a Meade County RECC customer along with my 90 year old grandmother and my retired parents. They are all on a fixed income and CANNOT afford this increase.

My children live with my ex-wife in Hancock County and are Kenegy customers. She works at BREC and is losing her job. She CANNOT afford this increase.
