~~Public~~ Public Service Comm.

Concerning Jackson Energy and their  
RATE INCREASE for the next 3 yrs

NO

Make them live within their means  
AT ALL times.

The public is out of money  
their customers are out of money

I'm tired of hearing corporations saying  
that they have cut their expenses to the  
bone but they still have to RAISE RATES

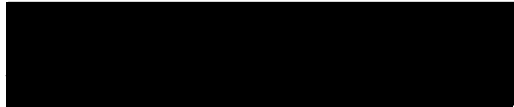

I live on a fixed income that does  
NOT go up. They tell us to use  
less elec but the base rates still  
go up because of their fixed expenses  
when does it stop going up & up & up

over

tell J. Energy NO on the  
RATE INCREASE

Thank-you

P.S. Are we still allowed to give our  
opinions in the United States of America?  
or can I expect some kind of  
retaliation ~~or~~ from Jackson Energy of  
the state of Ky?
