

249 Blueberry Lane Thursday
MT Sterling Ky 40353 December 4

Public Service Commission,

201400371

Please take another look at KUs
increase for January. (Hopefully with a
calculator in hand.)

I'm only one of thousands in KY on
a fixed income and we, for the most part,
really try to pay our bills.

With your help, KU is going from \$10.75 per
mo. for basic residential service to \$18.00
per month and calling it a 9.57% increase.

(What does your calculator say?)

Our cost of living is a whopping
1.7% increase next year. Even with KUs
9.57% (??) increase, it's still 5.6% times
more than our cost of living!

I never thought I would need to
write a letter like this. It's just not "my thing."
but Please take another look at KU
before it's too late for all of us.

Thank you -

Benjamin
