PUBLIC SERVICE
COMMISSION

To Kentucky Public Service:

This letter has been written concerning the proposed increase for 2014 for case number 00371. The electric company should not get any raise because it is all the citizens of Middlesboro can do to pay their bills at the rate they already are at now. Most people in Middlesboro live on a fixed income and they cannot afford for their bills to keep going up because of the rates being raised. Those who are proposing these rates being increased should consider that a lot of people are on a fixed income and most of the citizens have other needs that need to be met. We have other things that we need to buy besides paying a lot on our bills and it has not been that long ago that the rates were raised for KU. It is unfair to propose these rates to go up when it is all people can do to pay their bills at the rate they are at now.

Thank you,

Middlesboro Citizen
