Complaint

To: Public Service Commission

I am writing in regards to KU's \$18.00 a month basic charge is unjustified to read my meter, send me a bill and collect it, when I drop it off at Paris office every month.

As far as meter repairs and upkeep, nothing has been done to my meter since it was put in 29 or 30 years ago.

My electric bill is over double what it was 30 years ago now.

The KW usage rate I can see a small increase for that, but not the 18.00 a month basic charge, that is a rip off.

Signed
C. Abner
