RECEIVED

MAR 18 2015  
PUBLIC SERVICE  
COMMISSION

To whom it may concern:

I am writing to protest the 9.57% proposed increase in electric charges by Kentucky Utilities. I hope that you will consider what a hardship this would place on K.U. customers.

We have 700 unemployed coal miners in this area, due to recent mine closings. This increase would place an undue hardship on our merchants, grocers, churches, and donations- just to name a few that would be affected. Kentucky Utilities has estimated that the average usage for a residential customer is 1200 KWH. This may be true, if a household also has gas bills, however if you are all electric it would be two or three times that amount in KWH.

For the elderly that receive a 1.7% increase in Social Security benefits, this would wipe out any monthly increase. I find the request for such a high increase to be unconscionable. Please consider the serious consequences of such a rate increase and let their request be denied.

Sincerely,

Shirley A. Wells  
P. O. Box 164  
Sullivan, KY 42460  
(270) 333-2310

*Attached, you will find signatures of a few protesters that I have encountered from time to time. I feel sure everyone on K.U. service would have signed given the opportunity.*

These signatures are to petition the 9.57% increase in Kentucky Utilities bills in 2015.
