APR 15 2015

PUBLIC SERVICE
COMMISSIONName: RAY BARNETTAddress: 315 E. KENWOOD DRIVE LOU KY 40214Case: ANOTHER LG+E RATE INCREASE.

COMMENTS: Our Jan 2015 vs Jan 2008 gas and electric bills show the following:

- Elec - up 5.75% per year (quantity adjusted)
- Gas - up 7.63% per year (qty & price adj)
- Elec DSM - up 82.3% per year.
- Gas DSM - up 25.0% per year.
- Elec Basic Serv - up 16.4% per year
- Gas Basic Serv - up 8.9% per year
- Our base retirement income - up 1.1% per year

Please deny this rate increase. Get LG+E, like the other monopolies in Louisville, to implement some cost efficiencies, reduce its bureaucracy, eliminate these DSM programs that sponsor needless appliance replacement and will not result in savings to the rate payers, and provide some daylight on why additional money is really needed.
