CASE NO. 2014-0002

MOTION TO INTERVENE

Robert S. Chatham seeks an order of the Public Service Commission ("Commission") pursuant to 807 KAR 5:001, §4(11) granting me full intervention in this matter.

Robert S. Chatham is a customer of Louisville Gas & Electric who resides at 2248 Winston Ave, Louisville, KY 40205. Robert S. Chatham is also a professional engineer.

Robert S. Chatham has over 25 years of experience in the power industry including the siting, construction and operation of several large combine cycle natural gas-fired combustion turbine plants and six large scale utility PV solar plants, which include the siting and commercial operation of over 3,000 MWs of combine cycle natural gas-fired combustion turbine plants and over 80 MWs of PV solar plants. Due to my industry experience and knowledge, I do not believe that another party (i.e.; Attorney General) will be able to represent me in the proceedings, plus I will bring to the Commission's attention relevant information, which might not otherwise be brought forth in the proceeding.
