Case # 2014-00215

Executive Director
Public Service Commission

To whom it may concern,

Upon receiving Notice of increased rates proposal, I request intervention of this increase in rates.

This increase would pose a financial burden and unnecessary suffering for me.

Background:

I purchased my house 4 years ago.

I did not know about Arkle utilities.

7 months later, they notified me, I sent them the information they requested.

Never heard from them for 2 years.

Then they send me a bill for over

#50400.

After negotiations, it was agreed
I could pay an extra \$10.00 a
month toward the bill.

It is a struggle to make ends meet.
My water bill each month \$19.00 or
less.

Please decline or postpone this
proposal.

Sincerely
Beverly Kellie
