Dear Ms Ramser:

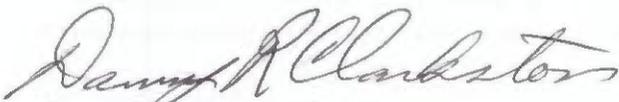

With this writing, please consider the following a formal request for assistance with a matter that has stretched a period of time that is critical.

August 2012, Cannonsburg Water District was selected for a pilot program in which the utility was granted a Utility Surcharge of \$5.53 per customer per month. These funds were granted for a period of three years and could only be used for infrastructure work in Districts that were 40 years and older. As this is a pilot program, there have been guidelines and legalities that have had to be addressed prior to any funds being accessible.

In the meantime, our engineering firm, E.L. Robinson Engineering and Attorney, Kevin Sinnette have been more than patient with us in waiting for their fees. However, there are bills that need to be satisfied and the end of the year is close at hand.

If there is anything at all that you could do to expedite the completion of the Utility Surcharge program, we would be greatly appreciative for your assistance. If you should need further information, please do not hesitate to contact me at (606)-232-6054.

Yours truly,

Danny R. Clarkston, Manager
Cannonsburg Water District
