RE: Case No. 2014-00267 – Surcharge Activity Report

Mr. Derouen,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to further gain control of its water loss.

To date Cannonsburg Water District still has just 8 of the 10 Zone Meters functioning with no timeframe given by Seamens as of when they will be onsite to correct the problems with the remaining 2. Of the 8 that are working properly we are now in the process of going through our billing cycles to ensure we have the correct customer accounts within each Zone Meter to compare the zone usage and billing.

With regards to repairs Cannonsburg Water was able to locate and repair 1 leak of moderate size and have also made repairs on 4 smaller leaks.

If at any time you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

Tim Webb
General Manager
