RE: Case No. 2014-00267 – Surcharge Activity Report

Mr. Derouen,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to further gain control of its water loss.

CWD is continuing to monitor the data received from the 8 flow meters in use at this time. New registers have been ordered by CI Thornburg for the 2 meters not in use. These registers have not been delivered yet at this time. In addition to the data monitoring, CWD will be purchasing a Digital Leak Detector to use in the field. Training on this equipment will be provided by Kentucky Rural Water Association and will be deployed immediately to help locate leaks that have not been located visually.

If at any time you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

A handwritten signature in blue ink that appears to read "Tim Webb".

Tim Webb
General Manager
