RE: Case No. 2014-00267 – Surcharge Activity Report

Mr. Derouen,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to further gain control of its water loss.

CWD is continuing to monitor the data received from the 8 flow meters in use at this time, in addition to visually inspections by walking meter routes to check for leaks and inactive usage meters. At this time CWD has successfully found and repaired 3 substantial leaks that were repaired during this current month (April). These repairs will be shown during the April Water Usage Report.

CWD is continuing its efforts, with the guidance of the PSC, in planning a water loss and detection project to further capture and reduce water loss.

If at any time, you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

A handwritten signature in blue ink that reads "Tim Webb".

Tim Webb
